

KNOXVILLE, TN

Air Distribution Partners

CaptiveAire® is the nation's leading manufacturer of commercial kitchen ventilation systems.

Combustion Research Corporation, located in Rochester Hills, Michigan, has been in the Low Intensity infrared heating manufacturing business for over 50 years.

LOREN COOK COMPANY is proud to be a leader in the design and manufacturing of fans, blowers, gravity vents, laboratory exhaust systems, and energy recovery ventilators.

A leading manufacturer of air duct products for the HVAC industry. We manufacture a complete line of residential air duct products and offer a full range of rectangular, round, and spiral duct products for commercial construction.

. EHG provides the construction market with residential, commercial, and industrial air distribution solutions.

Envira-North Systems Ltd. has recognized a worldwide need to reduce energy consumption by contributing to the effectiveness of heating, cooling and ventilation systems.

Committed to making products that support healthy and comfortable indoor environments.

Our products are precision engineered and manufactured to the highest standards to provide superior performance.

We continue our manufacturing tradition today in building customized heating components and thermal heating solutions.

Providing quality products such as •Branch Take-off Fittings, Square-to-Round Cans, Manual Dampers, Duct Access Doors and Wall Caps.

Agile manufacturing company that offers high quality HVAC and architectural sheet metal products while ensuring customers receive prompt and knowledgeable support.

Global leader providing optimum solutions for reducing sound and vibration inside buildings including mechanical systems, seismic restraints, engineering, floors, walls, and ceilings. Reduction of ambient sound from outdoor mounted mechanical equipment.

Superior craftsmanship, reliability and durable quality that you proudly put your name on. Air Curtains: Commercial, Industrial, Institutional and Food Service.

Nailor Industries, Inc. is known for our industry leading customer focused approach to providing innovative commercial and industrial HVAC products.

Shipping from two U.S. factories, our dependable service is backed by an industry-leading 5-year product warranty. We adhere to and exceed the most stringent codes set forth by industry organizations, and enjoy a strong partnership with the Sheet Metal Workers International Union.

Specialize in the production of fabric ducting and diffusers for the transport or distribution of air. We do not produce ducting by the meter, but provide tailor-made solutions. These include draft-free air supply, even air-flow distribution, maximum induction or, conversely, low-speed air supply throughout.

Berko and QMark employ both innovation and practicality in standard and custom-engineered heating and ventilation solutions for residential, commercial and industrial applications.

Originally known as Reliable Sheet Metal in the early 60's, offering products such as Aluminum GRD's, Aluminum Louvers, Aluminum PTAC Louvers and Aluminum Control Dampers.

Soler & Palau offers a range of ventilation products benefiting from over 60 years of experience within the industry.

Unsurpassed performance is our goal: to create duct systems that can not only deliver every cubic foot of air it is fed, but to treat the air with the utmost respect by not exposing it to fibrous or volatile organic chemical latent liners.

Our mission has been to provide quality engineered and manufactured products that solve exhaust, ventilation and heating/cooling problems.

Specializing in Quality. Offering: UL-Listed Life Safety Dampers, Louvers, Air Control Dampers, and roof Curbs.
